2. JOINT PUBLIC HEARING

Pat Murphy, Planning and Zoning (P&Z) Commission Chairperson, discussed the purpose behind the proposed changes to the code. He stated the code currently allows for medium density, single-family homes in Business District B2. The proposed changes would allow for the development of such homes with the approval of a Planned Unit Development (PUD). He stated any approved PUD would need to meet certain requirements, such as acreage, building height, and line of sight to nearby residential areas. He stated the code currently allows a height restriction in B2 of thirty-five feet. An approved PUD would increase the height in B2 from thirty-five to a maximum of fifty-five feet.

Councilmember Rouse clarified the increase in building height would apply to Business District B2 only.

Councilmember Mathews stated P&Z has worked on this vision for many years. She stated the proposed changes to the code would allow for a PUD and a possible increase in building height.

There were no other speakers.
